Education

Parul University

Vadodara, Gujarat

7 CGPA

July 2021 to June 2025

Bachelor's in Computer Science

Specialist in Cyber Security

As a full-stack developer, I specialize in both front-end and back-end development. On the front end, I work with React, TypeScript, and Next.js to create dynamic, responsive web interfaces. On the back end, I use Node.js and MongoDB to manage server-side logic, develop APIs, and integrate databases. My expertise ensures seamless integration between front-end and back-end, resulting in robust, scalable, and efficient web applications. Proficient in version control with Git and deploying applications, I focus on delivering high-quality, maintainable, and reliable full-stack solutions.

Experience

Parul University

July- Dec

Vadodara

Front-End Web Developer || Lab Technician
